

The University of Toronto has been a leader in the development of the field of environmental studies, and the establishment of the Department of Environmental Studies in 1972 was a landmark event in the history of the university. The department has since grown to become one of the largest and most respected in the world, and has played a major role in the development of the field of environmental studies.

With the formation of the Department of Environmental Studies, the following is a list of the members of the department:

1. Professor [Name] (1972-1973)
